REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The art of record considered as a whole, lone or in combination, neither anticipates nor renders obvious an explosive-operated power tool comprising: a piston chamber, a cavity, a breech opposite the cavity, channel between the chamber and the cavity, a sealing sleeve located in the cavity of the housing and displaceable between a first position in which the sealing sleeve is located axially away from the breech to allow sideways feeding of cartridges and in which the sealing sleeve blocks the communicating channel, and a second position in which the sealing sleeve adjoins the breech to secure the cartridge between the sleeve and the breech and in which the sealing sleeve does not block the communicating channel.

Further, withdrawn claims 4, 7, 9 and 12 are allowed since they directly and indirectly depend from the allowed generic claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
